Summary

Frontend web developer with a background in graphic design. Experienced in creative problem solving and meeting deadlines. Responsible for many design projects, including logos, brochures, advertisements, infographics, etc.

Web Development Projects

Introduction to Frontend Development - 2022

- > Developed a Portfolio Website, by following the project requirements based on the supplied brief using HTML5 to build the website and CSS3 to style the website. View project here: [Charl-Bester-Portfolio](#)

Angular Web App (myFlix) - 2022

- > Built the client-side of a Web App called myFlix which based on existing server-side code (REST API & database). The app provides logged in users with information about selected movies.
-

Work Experience

Freelance Graphic Designer

Hamburg, 2010 - present

> Touch Hamburg Kit - 2022

Designed a new look kit for a local Touch Rugby team that needed to stand out from the other teams.

> Echo Branding - 2021

Developed the branding for a new youth organisation, which met the needs of the core demographic and created a positive identity.

> HandicapX Blog - 2020

Created a series of infographics for an article, which provided helpful information on how to choose the correct wheelchair.

Graphic Designer

Girls' Brigade Ministries
Didcot(UK), 2008 - 2010

> Resource Materials for Girls & Young Women - 2009

Designed a series of resource booklets for groups to work through with girls and young women at weekly meetups.
